Our budget challenge - have your say

The council is facing unprecedented financial pressures due to government budget reductions, increased demand for services and extra costs such as teachers' pay and pensions. On top of this we think that our funding from Welsh Government will reduce significantly in the coming years which means we'll have less to spend in real terms at a time when demand for services like social care is rising. This means we have to find savings of £24.5 million next year and £90 million savings during the next four years.

These are extremely challenging times for all councils in Wales but in Swansea our priority remains to deliver the frontline services that people value.

The public have already told us their priorities are schools and social services and other local services such as highways and waste, but we also need to invest in schools and the city centre for future generations. But with less money we'll have to reduce spending on these priorities whilst making bigger cuts in other areas to balance the books.

We've already reduced our costs by modernising services such as using the internet, reducing admin and back-office services, generating income to pay for services and helping families earlier so that we can reduce costs later on. We've identified efficiencies and savings totalling over £60 million in the last three years and we're planning to further reduce management, business support and other back office costs.

We're also reviewing all of our services to ensure they are delivered in the best way and saving money by working with partners such as the police and health services. And the public can play their part by helping to run services, such as the successful scheme where bowlers are maintaining their greens, or by increasing recycling at home.

But it's not all about reducing spending. Next year we will be investing £1.6 million every day in services that make a real difference to people's lives. Services like safeguarding the vulnerable, tackling poverty and caring for our ageing population. We also want to invest in the city centre, in building new council houses, improving classrooms and delivering the City Deal with the potential to create 10,000 jobs.

Balancing all of these things will mean taking difficult decisions.

Where our money came from in 2018/19

The council raises more than £114 million in council tax each year, but this doesn't even cover the cost of our social services, let alone all the other services we provide. The overall cost of council services means simply raising council tax alone is not an option.

So we have to take other steps. We may have to close some services but if we take action now and find sustainable alternatives, we'll be able to protect more services.

That's why we want to talk to you now and get your views on how we can deliver services in the future.

The services we provide and what they cost

The council provides services to more than 240,000 residents, as well as developing the local economy to safeguard and create good jobs. These services include education and schools, care services to the elderly and disabled, care and protection services for children, waste and recycling collections, highways maintenance, subsidised public transport, leisure and recreation, environmental protection and licensing and planning.

You can find details of the many services we provide, including a full A to Z of Council services, on the following link:- www.swansea.gov.uk/residents
www.abertawe.gov.uk/preswylwyr

The Council has £430 million to spend. The vast majority of this money comes from the Government and grants, and we raise further money from council tax and income.

On average we spend £4,000 on every household in Swansea.

Future funding of services

Due to the size of the budget challenge facing the Council, we may not be able to provide the same number or level of services in the future.

We want your views on how we can provide services in the future:

4. Would you prefer to be prepared to pay more for some services rather than lose them?

Yes

No

5. If yes, please state in the box below which services you would be prepared to pay towards in the future:

6. Would you prefer for the Council to deliver services in a different way rather than lose them?

Yes

No

7. If yes, please state in the box below how would you like services delivered differently in the future.

Proposed Spend 2019/20:

Proposed Spend for 19/20	
Resources (Central Services)	£44,709m
Poverty and Prevention	£4,575m
Social Services	£115,681m
Education	£19,999m
Education - Delgated to Schools	£150,790m

Budget Proposals

Education:

Education is our single biggest area of spending and continues to be a priority for the Council (over £170 million budget proposed for 2019/20).

10. Do you agree or disagree with the proposals listed below?

	Strongly Agree	Tend to Agree	Tend to Disagree	Strongly Disagree
Explore increased income opportunities within the Music Service which will reduce the cost for the Council at no additional cost to schools. This will create a sustainable model for the service going forward.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

11. If you disagree, please tell us why?

Social Services:

Demand for social care is rising. People are living longer and want to live independently at home. In many cases this requires support from the council. At the same time we need to support people with complex care needs. We also support vulnerable children and families and provide a range of community services. We are doing more to support people earlier to help keep people healthier for longer and reduce demand for social care and health services. But demand continues to rise so we need to change the way we deliver some services so that we can support more people.

12. Do you agree or disagree with the proposals listed below?

	Strongly Agree	Tend to Agree	Tend to Disagree	Strongly Disagree
Further roll out of the Local Area Co-ordination provision across the Swansea. There are currently 11 Local Area Co-ordinators covering 11 areas. We propose to increase this to 15, further extending our prevention approach and reducing demand on social care, health and other public services.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

The Council carries out assessments when reviewing long term care packages, or to put care plans in place for those due to be discharged from hospital. We propose to increase the use of trusted assessors from other organisations, to undertake more assessments in the future, as part of our further roll out of our integrated model of health and social care.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	--------------------------

13. If you disagree with either of the above, please tell us why?

Poverty and Prevention:

The council currently provides funding to the Third Sector via service level agreements and direct grants. We want to review the way we fund the sector in the future to ensure that we are providing funding which aligns with the Council's priorities, including the possible removal of direct grants via the Swansea Compact Fund.

14. Do you agree or disagree with the proposal listed below?

Library Service Transformation:

We need to make some changes to our library services so that we continue to provide services in many communities. The Council has already started to create community hubs that include library services in a one-stop shop. The first of these is in Clydach. The Clydach pilot project has a strong emphasis on improving access to Council services digitally, however the make up of the hub will also ensure that support can be accessed physically, whether the need is for a council service, accessing local information, or being signposted to partner organisations. Our proposed changes to Library opening hours will help support the future delivery of community hubs and ensure more equal library service provision across Swansea.

In the future we are proposing that libraries will be managed in tiers and will deliver similar levels of service based on the tier they are in. The groupings are based on book issue data 2017/18 for libraries. This is the most reliable statistic for assessing impact and need which we have.

Tier 1 (52 hours per week)	Central Library		
Tier 2 (51 hours per week)	Gorseinon Library	Morrison Library	Oystermouth Library
Tier 3 (30 – 35 hours per week)	Brynhyfryd Library	Clydach Library	Killay Library

Tier 4 (25 hours per week)	Fforestfach Library	Penlan Library	St Thomas Library
	Townhill Library		
Tier 5 (less than 25 hours per week)	Llansamlet Library	Bonymaen

Library Community Services provide free library book collections to 47 private and public care homes and similar complexes. It also provides a free home delivery service to approximately 200 individuals who are unable to attend a library site. We can no longer provide these services in this way and need to explore ways of running the service at no cost to the Council. If this is not possible then this service will be removed.
